

You will see some differences this year!

Our methods of reporting student achievement are new and improved! At the end of each term you will receive a SMART report. Here's what you'll see on it:

- We have *focused* and *prioritized* our learning standards* and they are all listed on the SMART report.
- We are adopting a new reporting format.
 - 3 = meets or exceeds grade level standards
 - 2 = below grade level standards
 - 1 = far below grade level standards
- The SMART report will contain more detailed information, *personalized* for your student.
- One section of the SMART report will tell you what information and skills were *actually covered* in our class.
- Your student's current status will be available to you online anytime you want to see it. Go to <http://mydsd.davis.k12.ut.us/studentinformationsystem>

Now doesn't that seem **SMART?**

*These are the DESK – Davis Essential Skills & Knowledge – and are based on the Utah State Core Curriculum.
