

Playing YouTube videos on an iPad

1. Make sure the iPad is set to the DSD-Wireless network.
 - a. Open **“Settings,”** click on **“Wi-Fi”** then click on **DSD-Wireless.**
2. Open Safari and go to a website that is currently being blocked within the District such as www.purple.com and click on **Login as Different User.**
 - a. **Note:** If nothing happens when clicking on the *“Login as Different User”* button, close the tabs of the Internet windows that are open on the iPad.

3. Type your Encore username and password and click on the **Login** button.

The screenshot shows a web page with a black header. The main content area has a white background with the following text: 'Please Login' in orange, 'Username: [input field]', 'Password: [input field]', 'Server: [dropdown menu with 'dtdut.org' selected]', and a green button with the text 'Login'.

4. You should then see the following “Internet Access Window.”
 - a. **Note:** This window needs to remain open in order for you to view websites such as YouTube that are being blocked in the District.

5. Open a new Internet window by clicking the plus in the upper right corner.

6. Go to the web address that contains the YouTube video. You should now have access for playing the video.
