DAVIS,

OUR CHILDREN WITH  
SUCH GREAT CARE!

**Why** an interpreter

# \* SEAs & LEAs (ESSA)

## KEY POINTS

- SEAs and LEAs have an obligation to communicate meaningfully with limited English proficient (LEP) parents and to notify LEP parents adequately of information about any program, service, or activity called to the attention of non-LEP parents.
- **LEAs** must have a process to identify LEP parents and provide them with free and effective language assistance, such as translated materials or an appropriate and competent interpreter.
- Appropriate and competent translators or interpreters should have proficiency in target languages; ease of written and oral expression; knowledge of specialized terms or concepts; as well as be trained on their role, the ethics of interpreting and translating, and the need for confidentiality.

# \* SPECIAL EDUCATION

Under **34 CFR**

(Code of Federal Regulations)

300.503 & 300.304

Both Prior Notice & Procedural Safeguards must be written in **“understandable language”** to the **general public** and provided in the **native language** of the parent, or other communication used by the parent, unless it is clearly not feasible to do so.

## 34 CFR

### 300.503 & 300.304, **continues**

If the language or other communication mode of the parent is not a written language, the district must take steps to ensure: 1) that the notice is **translated orally** or by other means to the parent in his or her **native language** or other mode of communication 2) that the **parent understands the content of the notice**; and 3) that there is **written evidence** that the requirements of 1) and 2) have been met.

## \* OTHER REASONS

Making non-English speaking parents aware of their students' strengths and needs, and school/district educational and behavioral expectations so parents can become active partners in their students' education.

## Videos: CORE DIFFERENCES between a TRAINED and UNTRAINED INTERPRETER

**Theory:** A trained Interpreter follows Professional Protocols

1. **Body Positioning:** Emphasis on the message, not the interpreter, increase parties' engagement, reduce distractions
2. **Speaking in First Person (actuality):** Interpreter is transparent or invisible, actual message is conveyed, reduces 3<sup>rd</sup> person confusion
3. **Never add, omit, or substitute:** Never take away information from the message or eliminate important information or change the intent of the message
4. **Handling Side Conversations:** Should be rare, never exclude anyone, maintain professional roles and boundaries
5. **Clarifying:** Creates less distractions, better meeting flow, prevents the exclusion of any parties from conversation
6. **Managing the Session:** Creates better meeting flow, allows the interpreter what has to say and not to omit information (*The 1-2 Sentence at a Time Rule of Thumb*)
7. **Tone, register, style:** Prevents confusion, ensures accuracy and clear message, instills confidence in both parties
