

Because lunch is free for all students again this year, we have decided to claim the meals from the childcare program. This will change our process for handling and accounting for the meals. This is the process we will be following this year:

Each meal served to a child in childcare must be charged to that student through the register. They will be entered in the register the same way as every other student at the school. You will also account for these students on your School Order screen. You will not send a sold-to to Cindy for breakfast or lunch. You will continue to send a sold-to to Cindy for snacks or any additional food childcare gets from you.

If you do not have student numbers for the kids in childcare, please reach out to me. Once I know, I can request to have those given to you.

If you have records going back to the beginning of September, please go back and enter these children's names in the computer.
