NOTES: For FY2018-19: Incoming seniors were allowed to choose whether to stay at their current school or the new boundary school. This information will be tabulated at the end of January 2018, and may affect the total number of variances allowed at the five high schools involved in the boundary study.

For FY2018-19: The maximum number of sophomore variances at FHS is 6 and junior variances is 75. This was calculated by the total capacity divided by three, less the projected class size in boundary.

** Farmington High is now closed to variance. Due to the unique teaching program, staff cannot be simply added but teachers must be trained in this effort before teaching there.

Column **A** RegEd Capacity in the building (not counting portables) less rooms for SpEd

Column **B** Adjusted Capacity by State Rule, is 90% of **A** or **A** - 40, whichever is larger

Column **C** Projected RegEd enrollment for next school year

Column **D** Open Capacity as defined in Davis Policy 5S-407, if **C** < **B** (priority to in-district students)

Column **E** If **C** > **B** (CLOSED) - then 1.5 % of **C** (priority to in-district students)

* The principal MAY accept up to this amount - Principal's Discretion

The purpose of the 1.5% variance is to permit some choice in all schools

even if the school is closed under State Rule

If **E** were greater than **D** for OPEN schools - **E** would be used
